Subject: Correction to Submission Letter
Date: Monday, August 22, 2011 11:12:23 AM

Liz, I re-read the letter after submitting it and it has a typographical error. I had meant to state that we would be holding the level at 3 feet, not 4 feet until Oct 28. This is consistent with the protocol that we followed last year that we worked out with the Rowing Association. It has us wait until the fourth week in October before starting the pumping (end of rowing season). We found that was sufficient time to complete the drawdown before the end of November.

Could you please share this update with the Commission members. Sorry but my proofing could have been better.

Julie,

Could you please post this email with the Submission Letter on the Website

Subject: Sept 1 meeting

Attached is a copy of our annual report letter. It is a very large file due to the photos so I am not sure it will be delivered over email. Ellen will drop off CDs on Monday so that Julie or the Website administrator can load them on the Pond Committee page for access by all, and also leave a CD copy for your files. Please let me know if you will want paper copies as well. I am trying to save trees.

Thanks

Bruce
