### DESCRIPTION OF WORK PROPOSED: *(You may attach additional pages to describe your proposed work)*

*If project consists of several different tasks, begin by listing each task, then describe each task in detail including drawings, plans, and photos as necessary. You may attach additional pages to describe your proposed work.*

We seek your approval to add a safety fence to the property of the Hildreth Elementary School. We would like to add a black mesh wire fence along the border of the playground from the concrete wall to the backstop and from the backstop to the end of the parking area on the south side.

There is a need for further protection measures between the play area of the fields and the parking lot. This need became more evident after students were able to use the grass sections of the play area. Currently there is no physical barrier preventing children from running after balls that roll into the parking area. Additionally, there is nothing preventing adults from exiting their cars, entering the play area, and interacting with the students. This can become a security issue based on legal custody arrangements and potential stranger access to students.
