	EUI, Energy Use Intensity)? In what ways does the design exceed code?	
	How does the predicted performance compare to code?	
3.	How does the HVAC control system work? Which Building Management	
	System will be used? How will that be integrated with Bromfield's BMS?	
	What provisions have been made for sub-metering electricity?	
4.	How will Hildreth avoid the poor HVAC performance of Bromfield? What will
